

Stratford College
Co-educational Secondary School

The Transition Year Programme is a unique one year programme that promotes the personal, social, vocational and educational development of students and prepares them for their role as autonomous, participative and responsible members of society (Transition Year Guidelines, 1994, Department of Education).

TY provides a bridge to enable students to make the transition from the more dependent type of learning associated with Junior Cycle to the more independent learning environment associated with Senior Cycle. It encourages the development of a wide range of transferable critical thinking and creative problem- solving skills.
